The focus of the BFI NET.WORK is new and emerging film makers. The Horizons Fund is a talent development programme for emerging film makers, rather than a training scheme, and is not open to entry-level participants.

Emerging Filmmakers

- Have some experience but have not yet had a feature film produced;
- Have had a feature film produced but at a low budget level or which was self or privately funded at a budget of under £2m;
- Have a feature film credit but in a different role or as co-writer, co-director or co-producer and have yet to lead on a project;
- Have had a career break and are effectively re-launching themselves in the industry;
- Have some track record in other screen-based or related media (e.g. theatre, TV, radio, music, visual arts) but have yet to attract support or attention from within the film industry.

We are looking for candidates who have reached a critical point in their professional development, and who will particularly benefit from high-level mentoring and access to industry.

APPENDIX

National Lottery Act 1993 (Amended 1998) outlines key criteria to be taken into account when considering applications for funding. The Agency interprets these as follows:

Artistic Quality

Ffilm Cymru Wales seeks to support original and dramatic filmmaking.

Public Benefit

This may be achieved by diversifying the range of cinematic material provided; profiling new talent or increasing the representation of previously under-represented communities for example.

Financial Viability

Applications will need to be appropriately budgeted for the project's target audience and eventual market.

Partnership Funding

Applicants will need to show evidence of third party development finance or appropriate levels of in kind support where applicable.

Effective Management

Ffilm Cymru Wales is accountable for the expenditure of public funds and must therefore satisfy itself that the applicant is likely to deliver on budget and schedule and use the funds for the purpose intended.
